# What is SignOn Once?

- An advanced technology solution developed by ID Federation, a non-profit coalition of agents, carriers, solution providers, associations and user groups
- Developed by the insurance industry for the insurance industry
- Goal is to allow insurance professionals and consumers to get right down to business instead of fumbling with password clues, resets, and failed access
- Each user received a unique identity token with their distinct credentials allowing on-going access to participating SignOn Once solution providers and carriers
- Provides a seamless, standardized, secure method of connectivity

# What is the Trust Framework?

- Defines the business, legal and technology rules governing participation in ID Federation
- Reliance is based upon existing commercial relationships
- Protection of limited liability between participants
- Includes Use Cases and Standards to aid in implementation
- Currently updating to reflect the latest industry security requirements

# Current Status

- Irv Kantar joined ID Federation as Business Manager in September, 2017 to oversee daily activities, coordinate committees, and handle requests
- Resuming Business Committee meetings to update Trust Framework, and develop new marketing materials
- Resuming Technical Committee meetings to update Trust Framework to newer security methods and industry requirements such as the NY Cyber Security Program
- Update Use Cases and implementation steps for carriers
- Increase marketing by working with solution provider user groups and industry associations to grow the membership
- Reviewing options for automated Provisioning and De-provisioning

# Encouraging carrier partners

1. Review information at [signononce.org](http://signononce.org)
2. Questions? Email [Irv.Kantar@SignOnOnce.org](mailto:Irv.Kantar@SignOnOnce.org)

## Become a Member

SignOn Once helps everyone in the independent agency channel work better, smarter and more efficiently.

- Be Part of the Solution

While project oversight is managed by ID Federation, our ultimate success relies on the collaboration of carriers, solution providers, industry associations and agencies.

This holistic, inclusive approach ensures that the business, legal and technical implications for each industry segment will be fully understood and considered.

- Promote Your Organization as "Certified"

Let your business partners and clients know you've taken the steps necessary to keep their information safe and secure.

- Connect with Industry Leaders

SignOn Once membership connects you to other industry leaders. It's an excellent networking opportunity and forum for discussion on ways to keep moving the industry forward.

### Why Membership Matters

- Download Membership Pricing
- \* Review the Participation Agreement
- \* Read the Trust Framework

### Be Part of the Solution

The independent agency distribution channel needs a password solution to maintain and grow market share.

### Implement Key Technology

Password management is no longer a competitive advantage—it's a necessity. With SignOn Once, you'll be able to implement the technology your agents need and can promote your organization as "certified."

## Vertafore Offers SignOn Once

ID Federation is proud to announce that Vertafore will be the first agency management system certified to offer SignOn Once.

The partnership will enable agencies to reduce login and password issues and ensure a secure connection to carrier partners.

"Vertafore is psyched about bringing SignOn Once to our portfolio of insurance industry technology tools," says Bruce Winterburn, Vertafore's vice president of industry relations. "This is a game changer for both insurance agencies as well as carriers. It makes trusted transactions easier and faster, and ultimately enhances the industry's ability to serve customer needs."
